We recommend using the Netgear® N600 Wireless Dual Band Router with the Mobile Party Print system.

To configure your N600 router without manually changing the settings:

- 1. Open the Netgear[®] settings by opening a browser to *http://www.routerlogin.net* in the address bar.
- 2. Use the username and password listed on the back of the router.
- 3. Click on the Advanced tab.
- Open Administration > Backup Settings.
- 5. Click on the **Browse** button below Restore saved settings from a file.
- Navigate to the Party Print installation CD, and select Netgear_Settings.cfg.
- 7. Click on **Restore** to start the configuration process.
- 8. Touch Logout to close the window.
