

# **DNP IMAGINGCOMM AMERICA CORPORATION**

## **SLITTER OPERATOR**

### **JOB POSTING**

---

DNP Imagingcomm America Corporation, a leading manufacturer & distributor of dye sublimation ribbons used in printing photos and ID cards, has an excellent opportunity available in our Concord, NC facility for a Slitter Operator. The Slitter Operator runs production slitting machines in order to achieve daily, weekly, monthly, and annual output targets.

#### **RESPONSIBILITIES:**

- To set up and operate slitting machines according to the appropriate “machine operator’s manual” under direction of the Group Leader.
- Carry and supply materials to the machines.
- Remove finished product from the machine. Supplies and finished goods of up to 38 lbs. must be lifted about 75 times per shift. (Maximum weight to be lifted is 50lbs.)
- Group Leaders will determine the machine each operator is assigned to. Operators will be cross-trained to operate different machines.
- Recommend productivity improvement plans and cost reduction plans (Total Productive Maintenance activity). Investigate and analyze causes of target frustration.
- Help train other machine operators.
- Facilitate internal communication and working relationships within areas of responsibility.

#### **QUALIFICATIONS:**

- High school diploma or equivalent experience required. Associate degree in technical field preferred.
- 1 year of machine operation experience required.
- Must be able to follow written and verbal instructions.
- Must be able to enter production data into computer.
- Must be able to work a rotating 12 hour shifts. Shifts are either day or night.
- Production line experience in manufacturing.
- Must be able to lift up to 50 lbs. repeatedly throughout shift.
- Ability to maintain a good working relationship with fellow co-workers.

DNP Imagingcomm America Corporation is an Equal Opportunity Employer.
