ID400™

Passport and ID photos—It's simpler than ever to make a good profit!

Profitable

The ID400 Passport and ID Photo System boost revenues with PACKAGE OFFERS! Besides selling ID photos, you can easily generate additional profit with a second shot for friends and family.

Simple

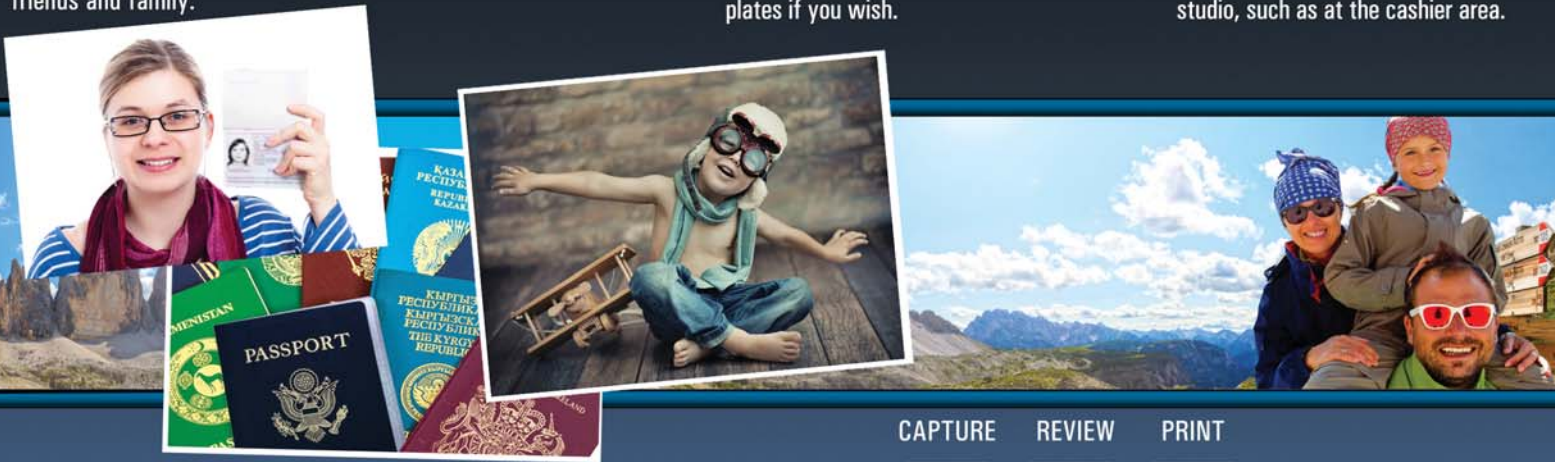

Make your customers happy by quickly producing compliant ID photos the first time every time. No need for manual adjustment—saving you time and removing the risk of operator error, too. A

Reliable

Automatically adjust the face position and size, so that it fits the frame properly. Select from a full range of passport and ID photo formats. Major passport and visa templates are built-in for easy access. You can also create custom templates if you wish.

Convenient

With flawless wireless technology, which eliminates cumbersome cable connections between the camera and the printer, the ID400 can be installed in more convenient locations away from the photo studio, such as at the cashier area.
