DNP Showcases Flagship DS620A™ Dye-sublimation Photo Printer at WPPI 2016

LAS VEGAS, Nevada – DNP Imagingcomm America Corporation (DNP IAM) will be showcasing its flagship DS620A dye-sublimation professional photo printer. As the latest addition to DNP's award-winning line of DS Series printers, the DS620A is the world's most compact professional-grade photo printer and can produce up to 400 prints per hour in a wide variety of sizes.

At only 10.8-inches wide by 14.4-inches deep by 6.7-inches high, the DS620A is 14 percent smaller and lighter than its predecessor. The small footprint allows for easy transportation and stacking with additional printers for high output functionality making it the ideal companion for attractions and photographers searching for mobility, speed, and volume. The printer's design also features improved aesthetics with a new white color scheme and rounded corners.

The DS620A is capable of producing 2"x6"(2-up) photo strips, 2"x6"(4-up) photo strips, 3.5"x5"(2x), 4"x6", 4"x6"(2x), 5"x7", and 6"x8" prints as well as new 5"x5" and 6"x6" square prints in a newly improved gloss or matte finish. Not only is the printer versatile, but it also boasts a 14 percent increase in image throughput per hour for some of the fastest print speeds available—standard 4"x6" images are produced in less than nine seconds, while 5"x7"s are printed in about 15 seconds. The printed media will also feature a new DNP watermark on the backside of each photo.

"With its wide range of print size options, quick output, and innovative print technology, the DS620A is a revenue generating asset for roaming photographers printing on-site as well as souvenir stations at attractions," said Katsuyuki Oshima, President of DNP Imagingcomm America Corporation. "The DS620A represents our continued commitment to providing the professional photography market with the most reliable and cost-effective printing solutions available."

Environmentally friendly, both energy consumption and media waste have been optimized in the DS620A. A new standby mode lowers costs and increases profitability by making the most efficient use of energy (<0.5W). The printer also provides advanced status information from the driver, enabling users at any time to check remaining media, media format, printer status, printer life counter, color control data, firmware version, and serial number.

The DS620A is compatible with DNP's vast range of software products, including the Tomo kiosk software, Nexlab® order management software, and the new print utility software Hot Folder Print

Utility for enhanced print workflows. DS620A printer drivers are available for Windows Vista, Windows 7, Windows 8, and Windows 10*. The Mac OS-X Driver is available for 10.9, 10.10, and 10.11.

*Driver for Windows 8 is tested compatible with Windows 10.

About Imagingcomm America Corporation (IAM)

IAM is a 100 percent U.S. subsidiary of Dai Nippon Printing Co., Ltd. (DNP) – the world's largest manufacturer of dye-sublimation media for photo printers and thermal transfer ribbons and barcode printers.

DNP Imagingcomm America Corporation has the broadest selection of solutions for the photo retail market and products designed to address retailer's specific business goals and objectives—backed by the quality and reliability today's customers expect. Manufacturing, sales and development offices of dye-sublimation media for photo printers is located in Concord, N.C., and more information is available at www.dnpimagingcomm.com.

About DNP

Imaging Communications Operations is one of many of DNP's operations. Over 25 years ago, DNP was one of the first organizations to pioneer dye-sublimation media -- and the oldest company to start business development in thermal transfer ribbons. DNP has since grown to be the world's largest manufacturer of dye-sublimation media and thermal transfer ribbons.

DNP group is also the world's largest diversified printing/coating technologies company. At its 71 production plants, both in Japan and overseas, DNP's operations include commercial printing, packaging, decorative materials, electronics, business forms and information media supplies. DNP is a global corporation with \$15.4 billion* in annual revenue. For more information, please visit www.dnp.co.jp/eng
