SELF ORDER SOFTWARE

NX Plus⁺

Instruction Manual

Administration

Introduction

Thank you for your purchase of NX Plus⁺ from DNP.

Please read through this guide before using the product.

Software License Agreement

This agreement("Agreement") sets forth the terms and conditions under which Dai Nippon Printing Co., Ltd. ("DNP") grants you a license to use the software and its series products defined below("Software"). You are deemed to have agreed to this Agreement when you have clicked the accept button of this Agreement on the display of your computer at the time of installation of the Software.

1. Software

"Software" means certain DNP software product and its series product which you purchased from DNP or its distributor, which includes the programs, data, manuals, documents, and other materials provided to you together with the Software. Software includes its duplicate copy, and also the modified version, if DNP provides you the modified version at DNP' s own discretion.

2. License

DNP grants you a non-exclusive and non-transferable license with respect to the Software subject to terms and conditions set forth below:

(1)Territory of Use: Outside Japan

(2)Method of Use: You may install the Software on computers under your control.

(3) Period of Use: From when you have clicked the accept button of this Agreement on the display of your computer at the time of installation of the Software until this Agreement terminates in accordance with Section 5.

3. Right of Software

The Software is protected under applicable copyright law, regulations and international treaties, and you acknowledge and agree that the Software shall at all times be the exclusive property of DNP or the licensor of DNP ("Licensor"), and nothing in this Agreement shall be construed to convey any ownership interest in such property to you.

You have no right or interest in the Software except as expressly granted to you in this Agreement.

If case of any use of the Software beyond the scope licensed in Section 2 or any breach of the terms and conditions set forth in this Agreement is found, DNP and/or the Licensor (as an intended third party beneficiary of this Agreement) are entitled to enforce the provisions of this Agreement directly against you in its own name.

4. Restrictions

You may not do the following conduct:

(1) You may not use or copy the Software in excess of what is allowed under its intended use under this Agreement or reasonably by law;

- (2) You may not alter, modify, merge or adapt the Software;
- (3) You may not reverse engineer, decompile or disassemble the Software, or otherwise attempt to derive the source code of the Software, unless permitted by applicable law;
- (4) You may not rent, lease, sublicense or otherwise assign the Software to third parties;
- (5) You may not remove, deface, alter or otherwise tamper with any proprietary, copyright, trade secret, warning or similar legend accompanying the Software;
- (6) You may not infringe copyright or any other rights in the Software;
- (7) You may not assign, transfer or grant any security interest in any or all of your rights and obligations under this Agreement to any third party without DNP' s prior written consent;
- (8) You may not export or re-export, or cause or permit the export or re-export of any of the Software in violation of any export laws and restrictions and regulations of the country involved.

5. Formation and Termination of the Agreement

- (1) This Agreement shall be agreed when you have clicked the accept button of this Agreement on the display of your computer at the time of installation of the Software and shall be effective until terminated by either of the causes below:
 - 1) You delete all the Software installed on your computer and cease the use of the Software;
 - 2) You are in breach of any term or condition of this Agreement.
- (2) Upon termination of this Agreement by your breach of any term or condition of this Agreement, you must immediately cease the use of the Software and delete all the Software installed on your computer and return all other Software to DNP.
- (3) Notwithstanding the termination of this Agreement, Section 3, Section 4, Section 5(2) and (3), Section 6(3)(4) and (5), Section 7 and Section 8 shall survive and remain effective after such termination.

6. Warranty and Disclaimer

- (1) DNP or its distributor shall replace the Software purchased by you if any damage or defect (which means any malfunction unexpected in the manual occurring under the required operation environment) is found in the Software, and you give notice of such damage or defect to DNP' s distributor from which you have purchased the Software within thirty (30) days from the purchase of such Software;
- (2) Notwithstanding the foregoing Section 6(1), if DNP or its distributor decides in its own discretion, such damage or defect will pose no problem on the use of the Software, DNP and its distributor shall not be responsible to replace the Software. If the Software requires any modification, the method and timing shall be determined in DNP' s sole discretion.
- (3) DNP, ITS DISTRIBUTORS AND THE LICENSOR MAKES NO WARRANTIES TO YOU, EXPRESSED, IMPLIED OR STATUTORY, REGARDING THE SOFTWARE, INCLUDING WITHOUT LIMITATION IMPLIED WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT AND/OR FITNESS FOR A PARTICULAR PURPOSE, OR THEIR EQUIVALENT UNDER THE LAWS OF ANY JURISDICTION. AFTER YOU HAVE AGREED TO THIS AGREEMENT, THE PURCHASE PRICE OF THE SOFTWARE IS UN-REFUNDABLE UNDER ANY CIRCUMSTANCES.
- (4) DNP, ITS DISTRIBUTORS AND THE LICENSOR SHALL NOT BE LIABLE TO YOU FOR ANY GENERAL,

SPECIAL, DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL OR OTHER DAMAGES ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE, HOWEVER CAUSED AND REGARDLESS OF THE THEORY OF LIABILITY, EVEN IF DNP OR THE LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

(5) NOTWITHSTANDING THE FOREGOING, IF ANY, THE LIABILITY OF DNP, ITS DISTRIBUTORS AND THE LICENSOR ARISING OUT OF OR RELATED TO THIS AGREEMENT WILL NOT EXCEED THE PURCHASE PRICE OF THE SOFTWARE UNDER ANY CIRCUMSTANCES.

7. Governing law and Jurisdiction

This Agreement shall be governed by and construed in accordance with the laws of Japan. All controversies arising from the interpretation and performance of this Agreement shall be submitted to the exclusive jurisdiction of the Tokyo District Court of Japan.

8. Severability

If any provision hereof is held invalid or unenforceable by a court of competent jurisdiction, such invalidity shall not affect the validity or operation of any other provision and such invalid provision shall be deemed to be severed from this Agreement.

1 Starting the Administrative application

1-1

Press the logo in the upper left of the standby screen or input method selection screen for 3 sec. or more. Alternatively, press the shortcut key (Ctrl+A).

1-2

1-3

Enter the password, and press the [OK] button. Administrator user' s initial password (default): "9999"

You can also use general user' s password and it will be configured in password settings tab in administrative application.

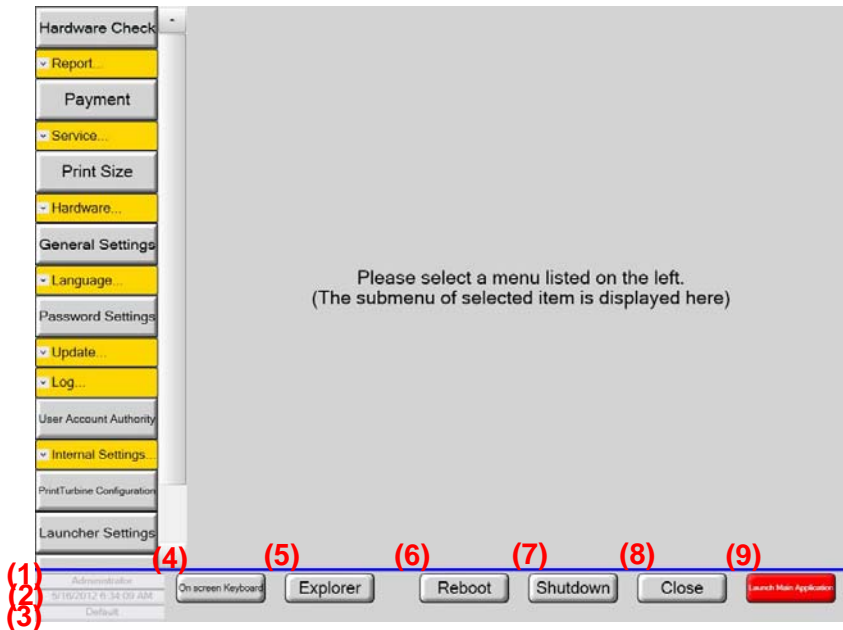

1-4

When the administrative application is started from the Start menu, the screen shown on the left will appear.

Enter the same password as shown in 1-3, and press the [Login] button.

1-5

- (1) Authority
Shows the authority of the user who has logged in.
- (2) Date and time
Shows the current date and time.
- (3) Terminal ID
Shows the corresponding terminal ID.
- (4) On-screen keyboard
Starts the on-screen keyboard.

- (5) Explorer [Shown only when logged on Administrator account]
Start Windows Explorer.
- (6) Reboot
Reboot the terminal
- (7) Shutdown
Shut down the terminal.

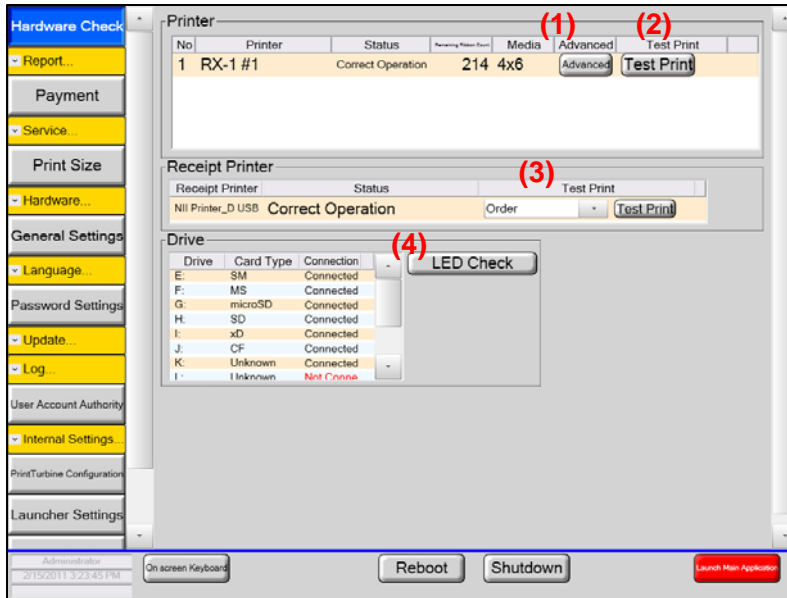

- (8) Close [Shown only when logged on Administrator account]
Close admin application and show desktop.
- (9) Launch Main Application
Exits the administrative application, and starts the application from which you open the administrative application.
For instance, if you open the administrative application from the store menu in launcher, launcher application will be started again. While you open the administrative application from the store menu in NX Plus⁺, NX Plus⁺ will be started again.

The following describes the functions available from the Maintenance screen.

2 Maintenance Functions

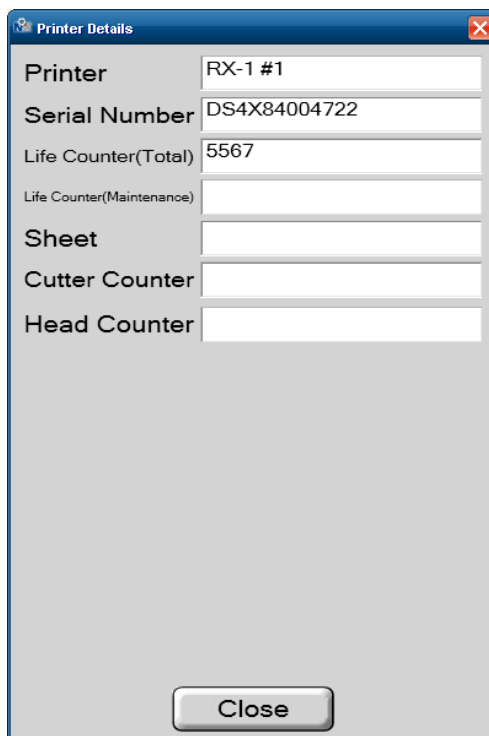

2-1 Hardware Check

You can check the status of all hardware connected to your machine.

(1) Printer: Advanced: [Advanced]

Select this button to show the detailed information of the selected printer.

Press the [Advanced] button to open the Printer Details dialog window, showing the detailed information of the corresponding printer.

(2) Printer: Test Print:[Test Print]

Select this button to start test print on the corresponding printer.

(3) Receipt Printer: Test Print: [Test Print]

Select this button to start test print of the receipt specified in the list shown on the left.

(4) Drive: [LED Check]

Select this button to show the connection status of the card reader and CD drive.

In addition, the LED lamp test is also performed. This is performed only when you use NX Plus⁺ on DNP order terminal DS-T3r.

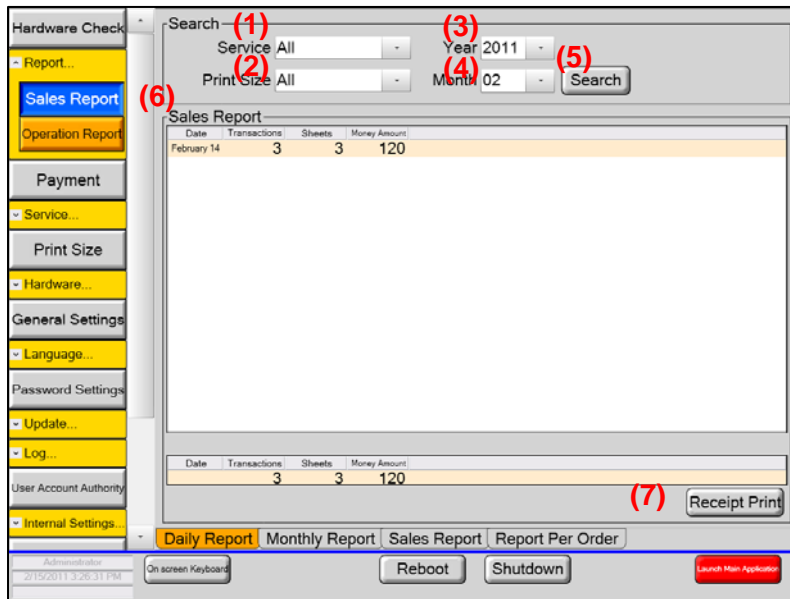

2 - 2 Report

2 - 2 - 1 Sales Report

You can check the sales information for the specified period and perform receipt print of the sales information.

Daily Report

Used for display and receipt print of the sales information collected for each day.

- (1) Search: Service
Specify the service to narrow down the search.
- (2) Search: Print Size
Specify the print size to narrow down the search.
- (3) Search: Year
Specify the year of the date to narrow down the search.
- (4) Search: Month
Specify the month of the date to narrow down the search.
- (5) Search: [Search]
Select this button to start searching the sales information based on the search conditions set in (1) to (4) and show the search result in the Sales Report field.
- (6) Sales Report
Shows a list of sales information found based on the specified search conditions.
Press a line to select it. Press again to deselect the line.
- (7) [Receipt Print]
Select this button to print the sales information of the selected line in receipt format.
If no line is selected, all sales information shown in the Sales Report field is printed in receipt format.

Monthly Report

Used for display and receipt print of the sales information collected for each month.

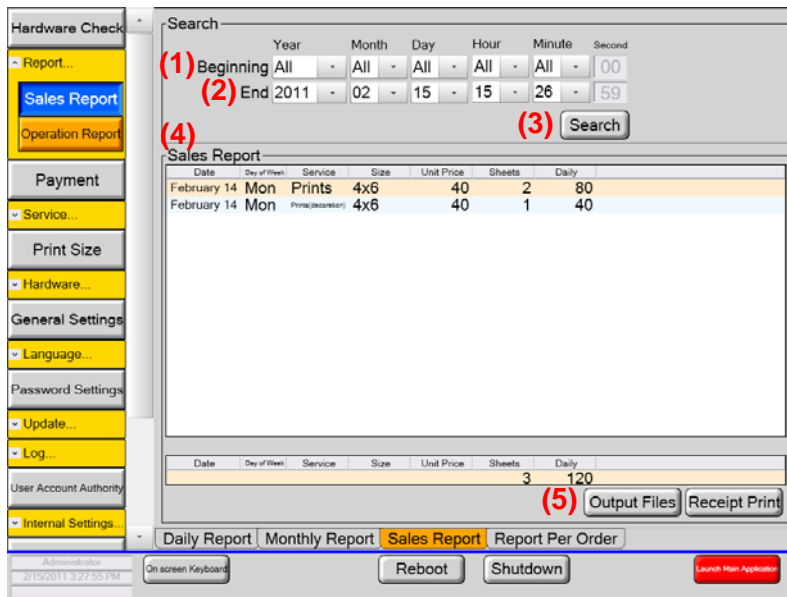

Date	Transactions	Sheets	Money Amount
January	0	0	0
February	3	3	120
March	0	0	0
April	0	0	0
May	0	0	0
June	0	0	0
July	0	0	0
August	0	0	0
September	0	0	0
October	0	0	0
November	0	0	0
December	0	0	0

Date	Transactions	Sheets	Money Amount
	3	3	120

- (1) Search: Service
Specify the service to narrow down the search.
- (2) Search: Print Size
Specify the print size to narrow down the search.
- (3) Search: Year
Specify the year of the date to narrow down the search.
- (4) Search: [Search]
Select this button to start searching the sales information based on the search conditions set in (1) to (3) and show the search result in the Sales Report field.
- (5) Service Report
Shows a list of sales information found based on the specified search conditions.
Press a line to select it. Press again to deselect the line.
- (6) [Receipt Print]
Select this button to print the sales information of the selected line in receipt format.
If no line is selected, all sales information shown in the Service Report field is printed in receipt format.

Sales Report

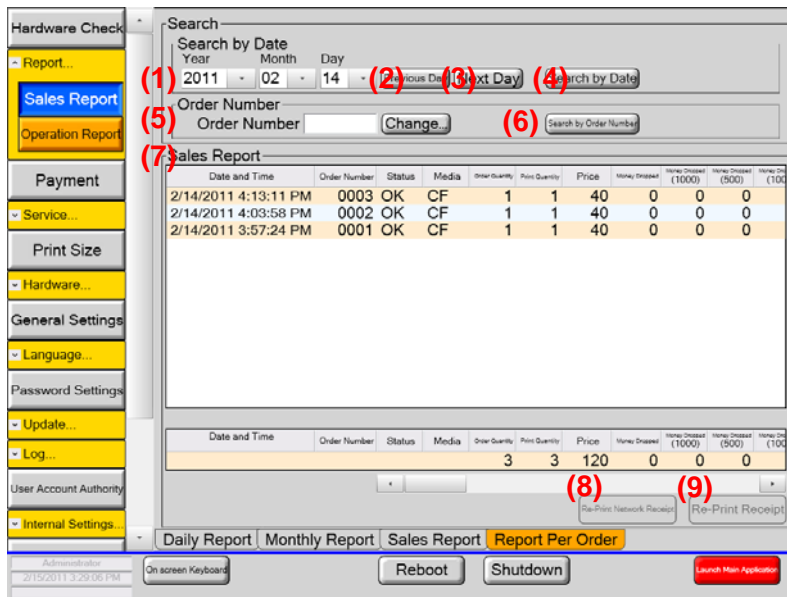

Used for display and receipt print of a sales information list.

- (1) Search: Beginning
Specify the information collection start date and time to narrow down the search.
 - (2) Search: End
Specify the information collection end date and time to narrow down the search.
 - (3) Search: [Search]
Select this button to start searching the sales information based on the search conditions specified in (1) and (2) and show the search result in the Sales Report field.
 - (4) Sales Report
Shows a list of sales information found based on the specified search conditions.
Press a line to select it. Press again to deselect the line.
 - (5) [Receipt Print]
Select this button to print the sales information of the selected line in receipt format.
If no line is selected, all sales information shown in the Sales Report field is printed in receipt format.
- [Output Files]
Select this button to output the currently displayed sales information to a file.

Report Per Order

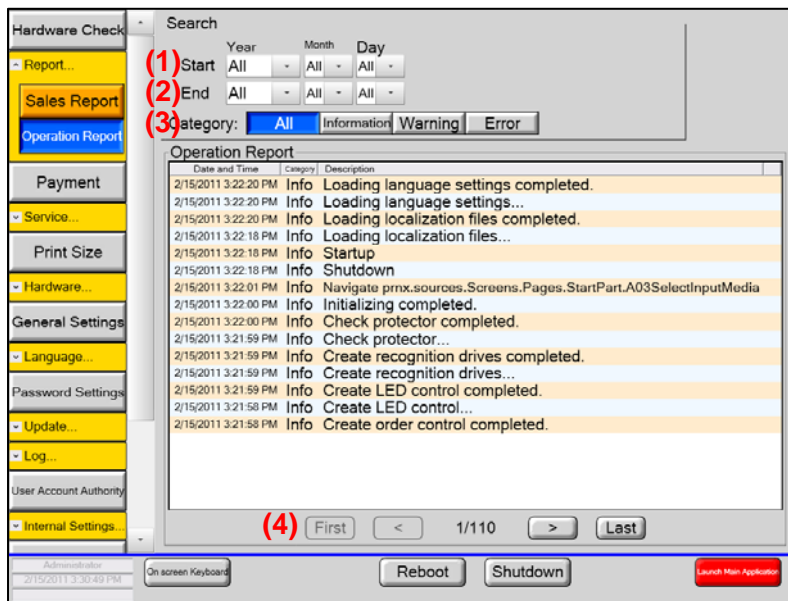

Used for list display and receipt re-print of sales information for each order.

- (1) Search: Search by Date: Year, Month, Day
Specify the year, month, and day to narrow down the search.
- (2) Search: Search by Date: [Previous Day]
Select this button to decrement the date set in (1).
- (3) Search: Search by Date: [Next Day]
Select this button to increment the date set in (1).
- (4) Search: Search by Date: [Search by Date]
Select this button to start searching the sales information based on the specified date (year, month, and day) and show the search result in the Sales Report field.
- (5) Order Number: Order Number
Specify the order number to search.
- (6) Order Number: [Search by Order Number]
Select this button to search the sales information based on the order number specified in (5) and show the search result in the Sales Report field.
- (7) Sales Report
Shows a list of sales information found based on the specified search conditions.
Press a line to select it. Press again to deselect the line.
- (8) [Re-print Network Receipt]
Select this button to re-prints the information on the selected line in receipt format.
This button is available only if the selected line is assigned to PrintTurbine.
- (9) [Re-print Receipt]
Select this button to re-print the information on the selected line in receipt format.

2 - 2 - 2 Operation Report

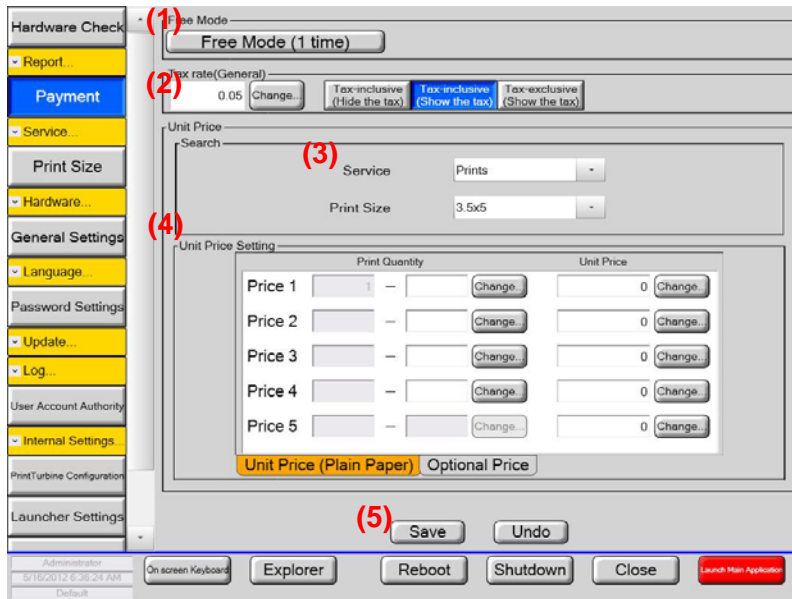

You can check the operation information for the specified period.

- (1) Search: Start
Specify the search start date to narrow down the search.
- (2) Search: End
Specify the search end date to narrow down the search.
- (3) Search: Category
Specify the category to narrow down the search.
- (4) Page change buttons
Allow for changing the page of the Operation Report list.
 - [First] : Displays the first page.
 - [<] : Displays the previous page.
 - [>] : Displays the next page.
 - [Last] : Displays the last page.

2-3 Payment

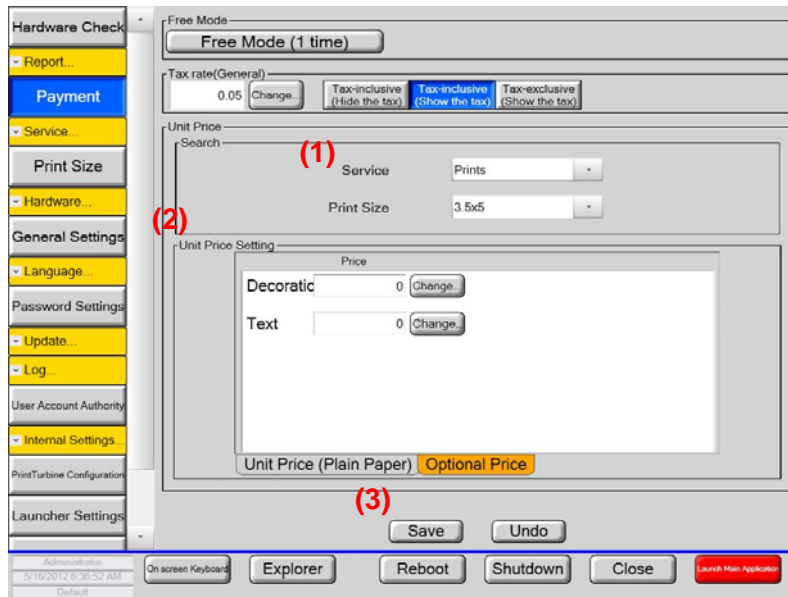

You can set the unit price, optional price, and tax rate for each service.

Setting the unit price (plain paper)

- (1) Free Mode: [Free Mode (1 time)]
Select this button to set the unit price to be free next order only.
- (2) Tax rate (General)
Set the tax rate and whether to show the tax-inclusive or tax-exclusive price.
- (3) Unit Price: Search
Specify the service and print size for which you will set the unit price.
If you change the service or print size, the content of the Unit Price Setting field is switched accordingly.
- (4) Unit Price Setting
Set the unit price for the service and print size specified in (3).
* For the unit price, maximum five types can be set for each combination of Service and Print Size. When setting multiple unit prices, specify the range of sheets to which the unit price is applied in the Print Quantity column.
- (5) [Save]
Select this button to save the changes made on this screen.

Setting the optional price

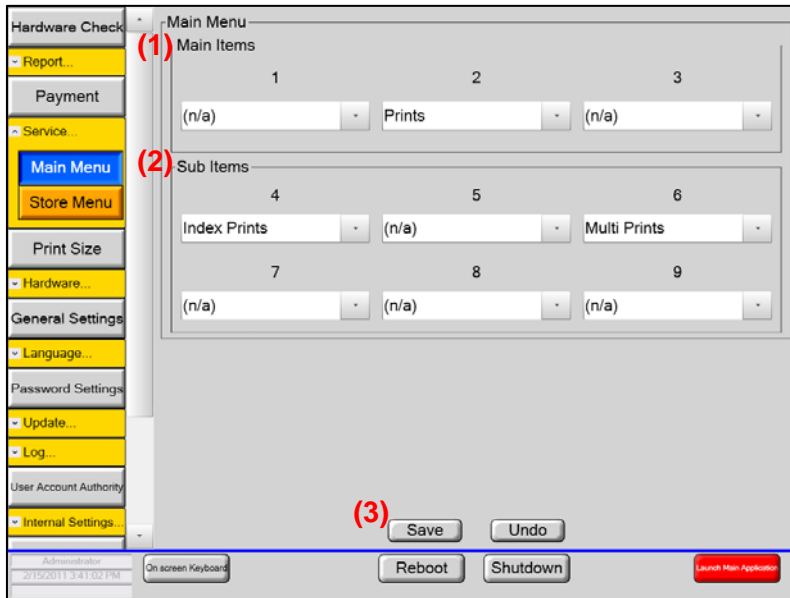

- (1) Unit Price: Search
Specify the service and print size for which you will set the optional price.
If you change the service or print size, the content of the Unit Price Setting field is switched accordingly.
- (2) Unit Price Setting
Set the unit price for the service and print size specified in (1).
- (3) [Save]
Select this button to save the changes made on this screen.

2-4 Service

2-4-1 Main Menu

You can set the services used in the main application and their display positions on the menu screen.

(1) Main Items

Set the services which you want to display in a large size in the upper portion of the Main Menu screen of the main application.

(2) Sub Items

Set the services which you want to display in a small size in the lower portion of the Main Menu screen of the main application.

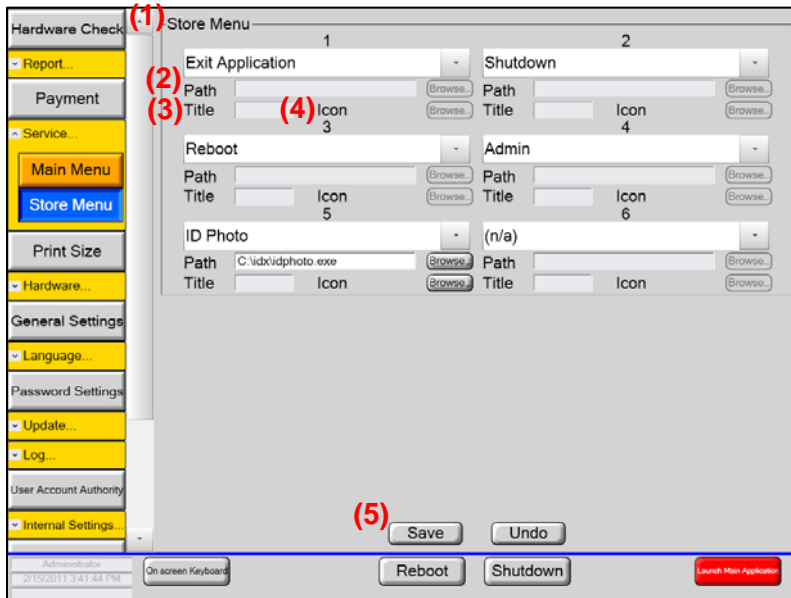

(3) [Save]

Select this button to save the changes made on this screen.

* Services which are not set in either Main Items or Sub Items will be disabled in the main application.

2-4-2 Store Menu

You can set the functions used on the Store Menu screen of the main application and their display positions on the screen.

(1) Store Menu item

Set and locate the menu items displayed on the Store Menu screen of the main application.

The set menu items are located as follows:

Service set in 1 appears in the upper left of the Store Menu screen.

Service set in 2 appears in the upper right of the Store Menu screen.

Service set in 3 appears in the central left of the Store Menu screen.

Service set in 4 appears in the central right of the Store Menu screen.

Service set in 5 appears in the lower left of the Store Menu screen.

Service set in 6 appears in the lower right of the Store Menu screen.

(2) Path

Set the path to the ID photo or external application execution file.

This setting is available only if ID Photo or external application is set in (1).

(3) Title

Set the title of the external application displayed in the main application.

This setting is available only if external application is set in (1).

(4) Icon

Set the icon of the ID photo or external application displayed in the main application.

This setting is available only if ID Photo or external application is set in (1).

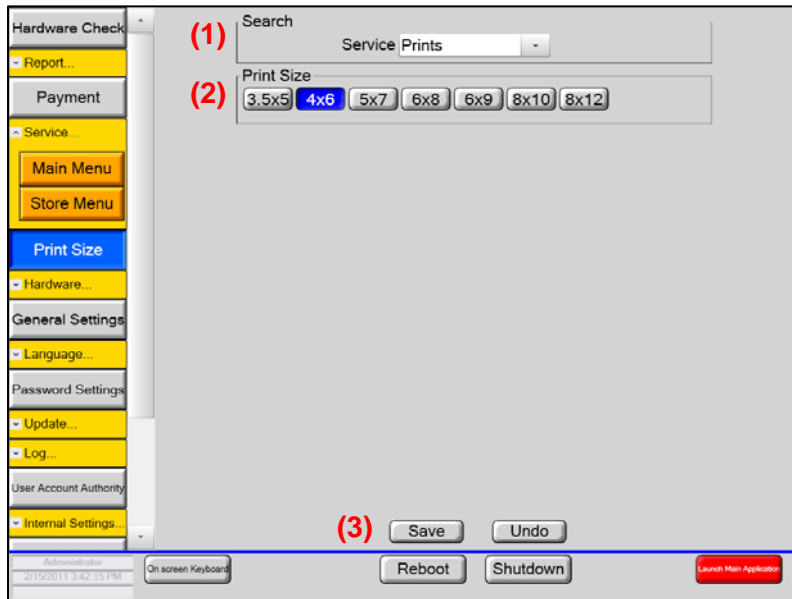

(5) [Save]

Select this button to save the changes made on this screen.

* Functions which are not set on this screen will be unavailable from the main application.

2-5 Print Size

You can set the print size used for each service.

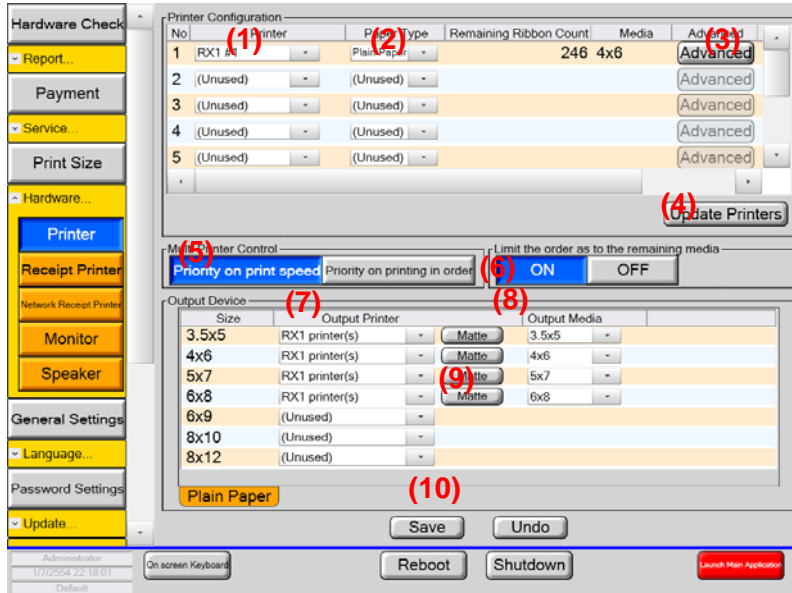

- (1) Search
Select the service for which you want to set the print size.
- (2) Print Size
Select the print size used for the service specified in (1).
* For Type-LE, the 6x9, 8x10 and 8x12 size is not displayed.
- (3) [Save]
Select this button to save the changes made on this screen.

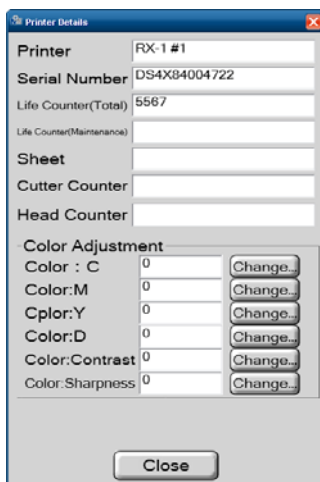

2-6 Hardware

2-6-1 Printer

You can make printer settings, printer color adjustment, and output settings for each paper type.

- (1) Printer Configuration: Printer
Select the printers used in the main application.
- (2) Printer Configuration: Paper Type
Select the type of paper loaded in the printer.
- (3) Printer Configuration: Advanced [Advanced]
Select this button to show the detailed information of the selected printer.

Press the [Advanced] button to open the Printer Details dialog window, showing the detailed information of the corresponding printer.

You can make the color adjustment for the printer.

- (4) Printer Configuration: [Update Printers]
Select this button to perform re-detection of the currently set printers.

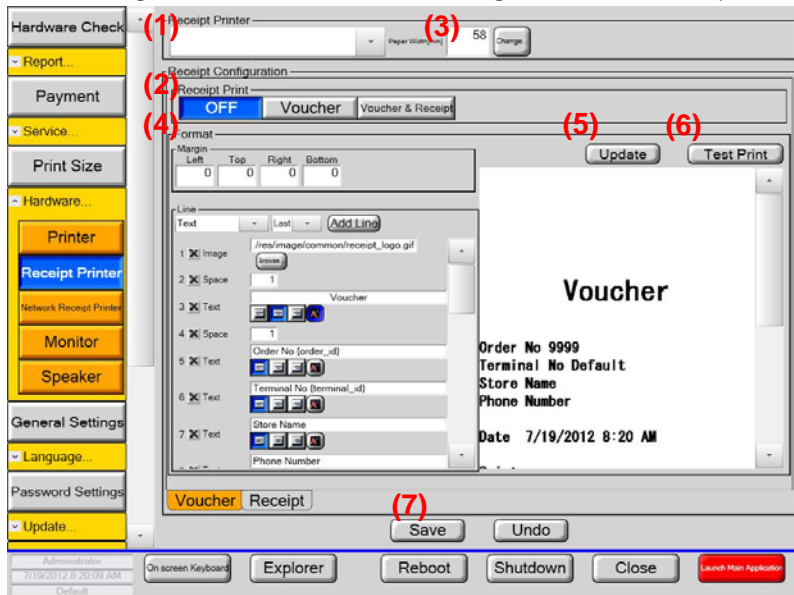

- (5) Multi Printer Control
 - Select the print control method of the main application.
 - [Priority on print speed]: Performs printing as quick as system possible.
 - [Priority on printing in order]: Performs printing in order of displayed images.
- (6) Limit the order as to the remaining media
 - Set whether or not to control the number of ordered prints to be accepted according to the remaining quantity of the loaded paper.
 - [Limited]: Does not accept an order of printing which exceeds the remaining quantity of the loaded paper.
 - [Unlimited]: Accepts an order of printing which exceeds the remaining quantity of the loaded paper.
- (7) Output Device: Output Printer
 - Set the printer to be used for each paper size shown on the left.
- (8) Output Device: Output Media
 - Set the actual paper size on which printing is performed for each paper size shown on the left.
- (9) Output Device: Matte
 - Set whether or not to apply a matte finish for each paper size.
- (10) [Save]
 - Select this button to save the changes made on this screen.

2-6-2 Receipt Printer

You can make receipt printer settings, format customization of voucher and receipt, and specify whether or not to print voucher.

[Voucher] tab

Customizing the voucher format and setting whether or not to print voucher

- (1) Receipt Printer
Select the receipt printer to be used.
- (2) Receipt Configuration: Receipt Printer
Set whether or not to print voucher and receipt in the main application.
[OFF]: Prints no voucher.
[Voucher]: Prints voucher.
[Voucher & Receipt]: Prints voucher and receipt in this order.
- (3) Receipt Printer: Paper Width (mm)
Set the format of voucher printed in the main application.
Set the paper width for the receipt printer selected in (1).
- (4) Receipt Configuration: Format
Set the format of voucher printed in the main application.

-Line type select list box

Select the type of each line.

Text	Show inputted text on the receipt.
Image	Show specified image on the receipt.
Space	Insert space.
Breakout	Show detail order information on the receipt.
Printer status	<p>Show printer status on the receipt.</p> <p>LP-Local printer status.</p> <p>PT- Status of Printers under PrintTurbine.</p> <p>Example)</p> <div style="border: 1px solid blue; padding: 5px; margin: 5px 0;"> <pre>LP #1 030 #2 040 #3 099 #4Err LP #5 Err #6 050 #7 Err #8 200 PT1 #1 200 #2 200 #3 --- #4 Err PT2 #1 Err #2 035 #3 Err #4 Err PT3 #1 200 #2 200 #3 --- #4 Err</pre> </div> <p>Number shows the one of remaining media.</p> <p>Err stands for Error status.</p>

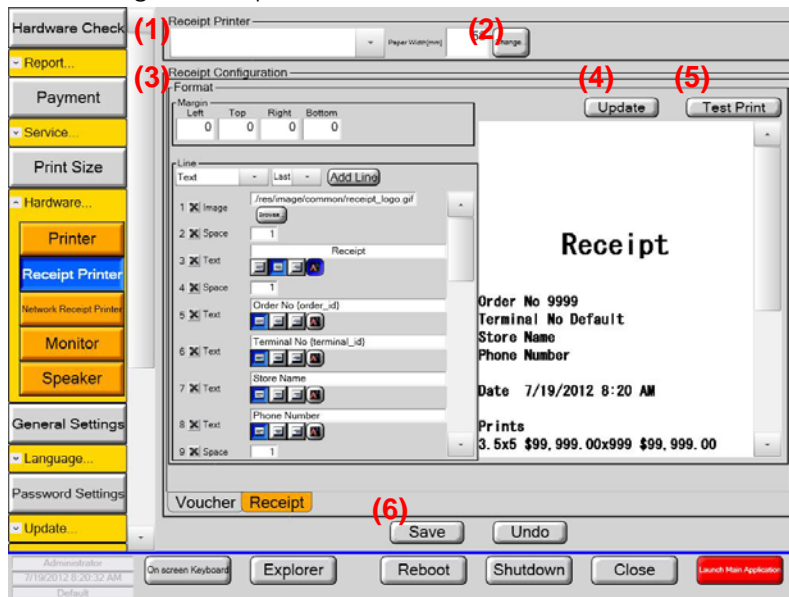

You can also get each value from the system typing functions listed below into the text box.

Function	Description
{order_id}	Show order ID issued by NX Plus+ application.
{terminal_id}	Show terminal ID configured on System settings 1.
{order_date}	Show the date which order is submitted.
{service}	Show service type.
{print_size}	Show print size.
{unit_price}	Show unit price.
{qty}	Show the number of prints per line item.
{price}	Show subtotal price.
{total_price}	Show total price.

- (1) Press Panel: [Calibration]
Press this button to start the utility software of the press panel. This is only for DNP order terminal DS-T3r.
- (2) Mouse Cursor
Set whether to show or hide the mouse cursor.
- (3) [Save]
Select this button to save the changes made on this screen.

2-6-6 Speaker

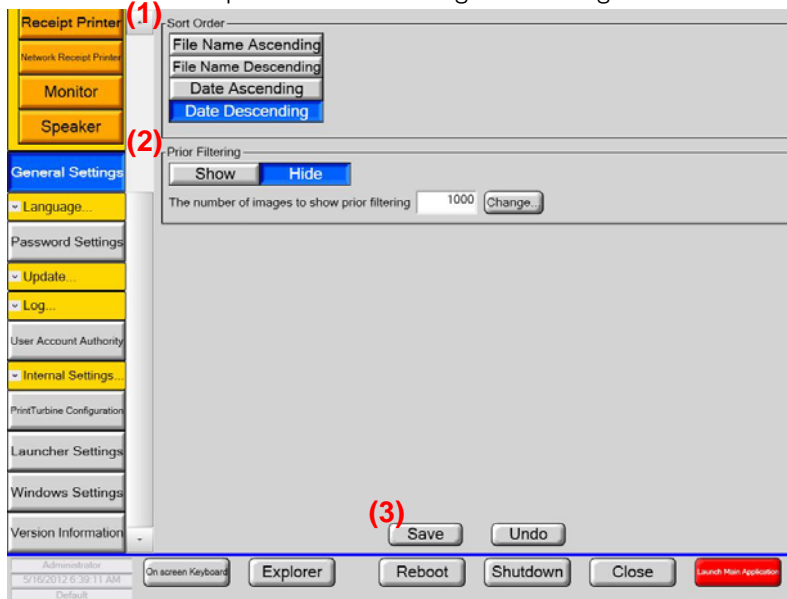

You can make sound volume settings.

- (1) Sound Volume: Effect
Set the sound volume.
- (2) [Save]
Select this button to save the changes made on this screen.

2-7 General Settings

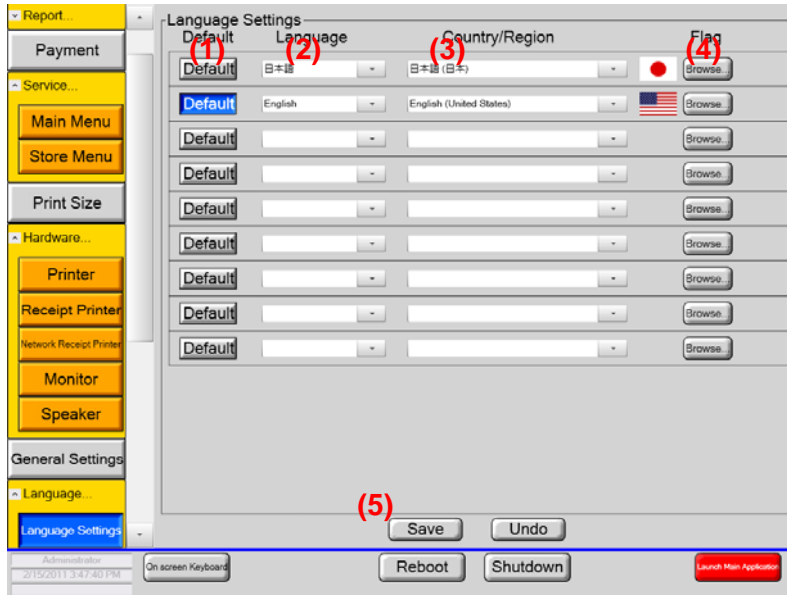

You can set the sequential order of image file sorting.

- (1) Sort Order
Set the default order sorting of image file in the main application.
- (2) [Prior Filtering]
Set whether to enable or disable prior filtering before loading images on main application.
Show-Enable filtering *If value is set to "0", this function is disabled.
Hide-Disable filtering
- (3) [Save]
Select this button to save the changes made on this screen.

2-8 Language Settings

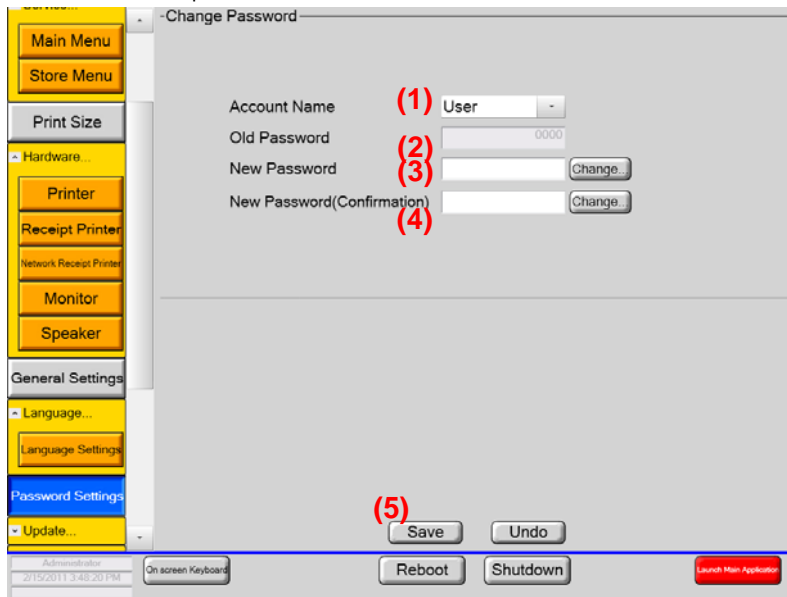

You can set the default language, whether or not to enable language changing, and the national flag corresponding to the specified language.

- (1) Language Settings: Default
Select the [Default] button to set the corresponding language to be used as the default. The default language will be reflected in the default language of the main application, the language of the administrative application, receipt, and price indication. Currency used in main application is also defined regarding to this setting.
- (2) Language Settings: Language
Select the selectable language in the main application.
- (3) Language Settings: Country/Region
The specified language will be set.
- (4) Language Settings: Flag
Set the national flag image to be displayed on the language selection screen of the main application.
- (5) [Save]
Select this button to save the changes made on this screen.

2-9 Password Settings

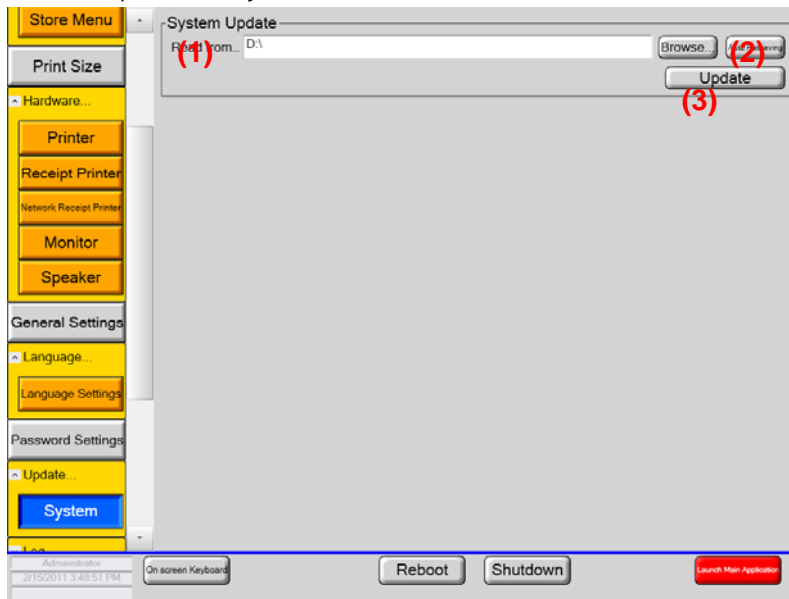

You can set the password of the user who will use the administrative application.

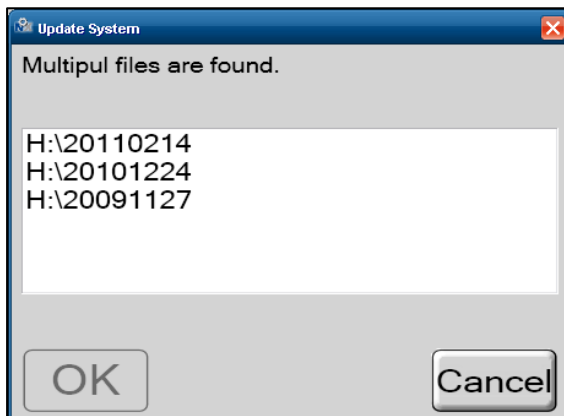

- (1) Change Password: Account Name
Select the administration authority of the user for whom you want to change the password.
You have two accounts. One is Administrator and the other is User.
- (2) Change Password: Old Password
Shows the currently used password.
- (3) Change Password: New Password
Input a new password.
- (4) Change Password: New Password (Confirmation)
Input the new password again for confirmation.
- (5) [Save]
Select this button to save the changes made on this screen.

2-1 0 Update

You can update the system.

- (1) System Update: Read from
Specify the folder in which the system update program is stored.
- (2) System Update: [Auto Retrieving]
Select this button to search for the update program on media cards and CD-ROM.
If multiple updates exist, the Update System window appears.

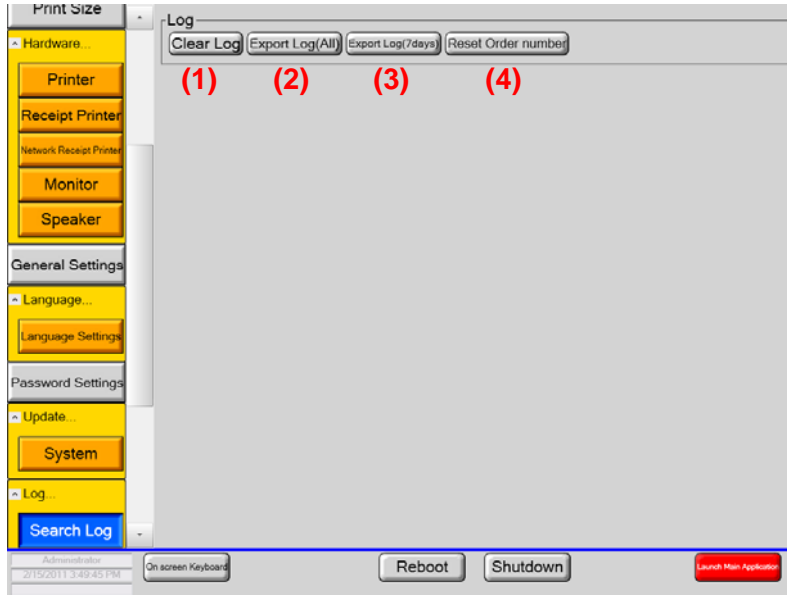

- (3) System Update: [Update]
Select this button to start the update program to update the system files.

2-1 1 Log

2-1 1-1 Search Log

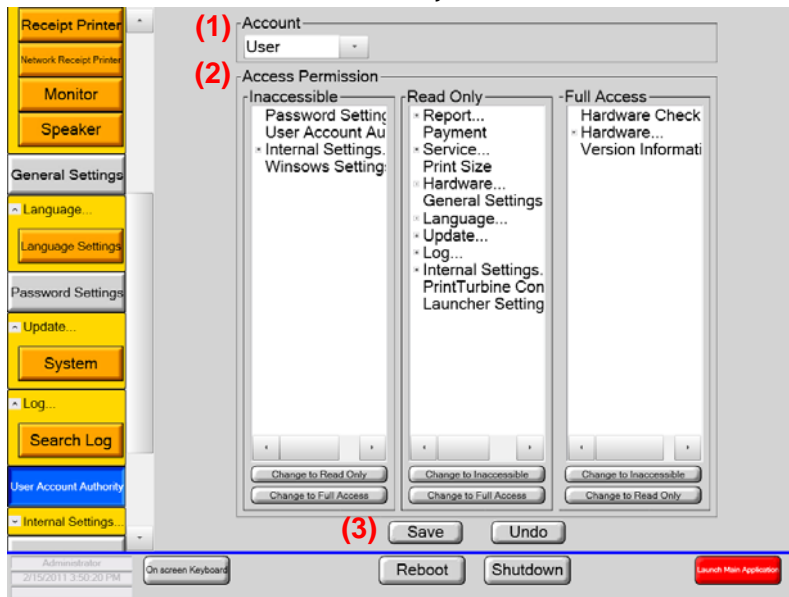

You can operate log files.

- (1) Log: [Clear Log]
Select this button to clear the log files in the log folder.
- (2) Log: [Export Log (All)]
Select this button to open the Select Folder dialog window, prompting you to select the folder to which the log files will be output.
Upon folder selection, all the log files are output to the selected folder.
- (3) Log: [Export Log (7 days)]
Select this button to open the Select Folder dialog window, prompting you to select the folder to which the log files will be output.
Upon folder selection, the log files for the last seven days are output to the selected folder.
- (4) Log: [Reset Order number]
Select this button to initialize the order numbers in the main application.

2-1 2 User Account Authority

You can set the user account authority.

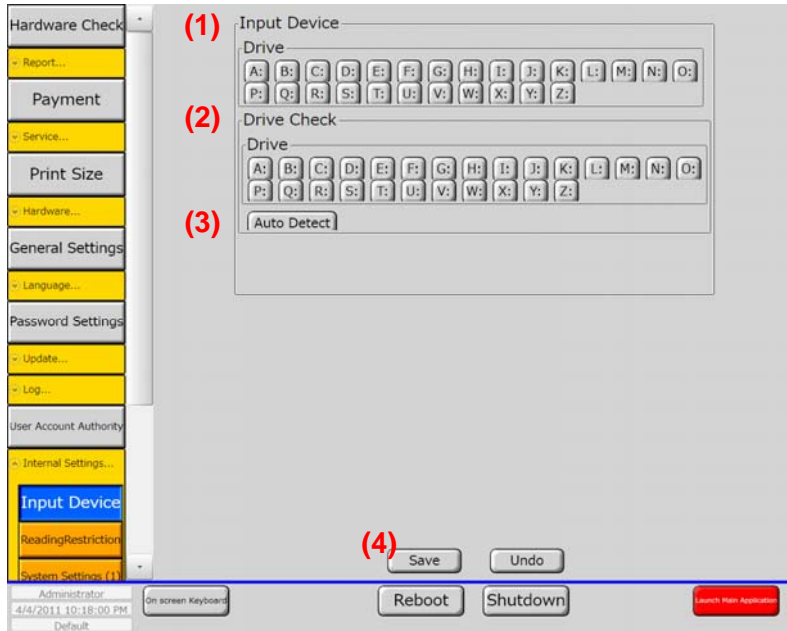

- (1) Account
Select the user for whom you want to change the access permission.
- (2) Access Permission
This field allows you to set the selected screen to [Inaccessible], [Read Only], or [Full Access].
- (3) [Save]
Select this button to save the changes made on this screen.

2-1 3 Internal Settings
