

Pump Up the Party, Unleash the Vibes!

You've got an opportunity to supercharge any guest experience with Party Print! Party Print by DNP is a fantastic new service designed for Wedding event planners, DJs, and photographers. This innovative solution seamlessly integrates social sharing, live slideshows, and on-location photo prints to elevate your events. Party Print by DNP will amplify the good times by making all of the guest's selfies and photos available for print!

Compatible with all DNP Photo Printers!

-  **Social Sharing**
-  **Live Slide Show**
-  **On-location Prints**

Fun - That You Can Sell!

Experience the evolution of capturing memories at events with Party Print – a modern solution replacing clunky disposable cameras. In the era of smartphones, photos get lost in the constant stream of social media updates.

Party Print eliminates this issue by empowering clients and attendees to upload photos via user-friendly web app. These photos are shared in real time through a live feed, fostering a collective experience. Guests can effortlessly download, instantly print copies, and enjoy a large-screen slideshow showcasing the event's captured moments.

Accessing Party Print is simple and quick – attendees scan a QR code to enter the web app, choose their favorite photos, and either send or print them. To offer this service, all you need is a PC connected to a DNP printer and internet connectivity at the event. Optionally, a large-screen display enhances the experience.

The entire process is web-based, allowing you to create and manage Party Print events seamlessly from any PC or tablet through a standard web browser. All all you need is a WCM-Plus or PC connected to a DNP printer and internet connectivity. Ensure that the memories created at events receive the attention they deserve with Party Print!

Memories Deserve Party Print!

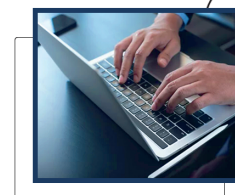

Show Photos on a Big Screen and Print

Immediate gratification when guests share their photos

A Guest Web App That's Fast & Easy

Includes a live feed of all guest photos

Cloud-based Setup and Management

Create and manage your events through any web browser

How does it work?

- Step 1**
You create an event using the Party Print web portal. The system generates a QR code that is specific to the event.
- Step 2**
Print cards, posters, and other items that includes this QR code for prominent display at the event.
- Step 3**
Event guests scan the QR code on their mobile device and are taken to a web application to share their photos and view the live photo feed
- Step 4**
When photos are shared, they are automatically printed and added to a slide show for the event.

Easy User-Friendly Process!

- 1. Scan QR Code**
Guests scan a QR code to go to the Party Print web app.
- 2. Take Photos**
Using their smartphone, guests take photos during the event.
- 3. Select & Upload Photos**
Photos are selected and sent to the cloud server.

Who is Party Print For?

Wedding & Event Photographers and Photo Booth Operators

Party Print complements your mobile photo booth service or can operate as a stand alone. Offer the Party Print system in addition to your photo booth services portfolio to bring added value and revenue.

DJs

If you're not already offering photo printing and sharing services, Party Print is a convenient value add for clients who would like to have photo activities as a part of their events.

Event Planners & Venues

From weddings to anniversary parties, corporate functions to fundraising events, and more, all guests can participate in sharing moments and taking home prints.

Combine Party Print With a Mobile Photo Booth

Use the WCM Plus wireless print module to print from iPad photo booths using Apple Airprint. Those images can be automatically included in the Party Print feed with guest photos!

Compatible with all DNP Photo Printers!

Make Events More Special With Customized Graphics

Create unique graphics for the online feed, slide show, and for print borders.

Requirements

- WCM-Plus or PC Running Windows 10
- DNP photo printer
- TV or monitor w/ HDMI connection (optional)
