Version History	2
Items fixed in 3.5.55.22:	3
Items fixed in 3.5.45.20:	8
Items of v3.5.45.18	8

Items fixed in 3.5.55.22:

1. Mixed payment workflow
 - a. Pay at counter
 - i. System release receipt for the customer (same flow as Tomo system)
 - b. Pay by credit card (Sumup only), at the end of the order pay by credit card & the order starts printing after successful transaction

For each process confirmation type, Sumup payment type is available.

A blue rectangular screen with white text. At the top, it says "Please select your favorite payment method". Below this, there are two white rectangular buttons with black borders. The first button contains the text "credit card" and the second button contains the text "pay to the operator". At the bottom of the screen, there is a white circular icon with a black 'X' inside, followed by the word "cancel" in white text.

Please select your favorite payment method

5. DS620 FW v1.62, DS820 FW v1.07 update
6. DS620EX printer support (only smoke test)
7. Adding message after cable connection: "Your device has been detected, the photos are being loaded, and it may take a few minutes."
8. Fix: UK E passport validation date printed on the final photo
9. Fix: Random DNP printer disconnection issue

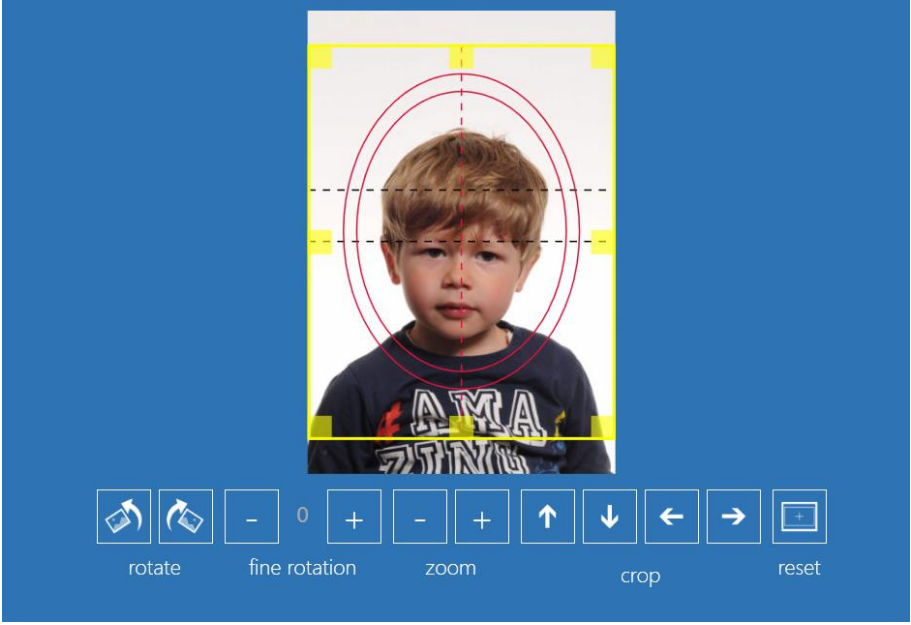

Items fixed in 3.5.45.20:

1. PhotoPrints work flow fix when an additional Ethernet card is attached
 - a. When an additional RJ45 is attached, the system picks up a new ip address from this additional card
 - b. From this version we can set the ip address in the admin/photo source, if the listed ip address is not the inbuilt Ethernet card address.
2. Translation fix for Printogo in French language

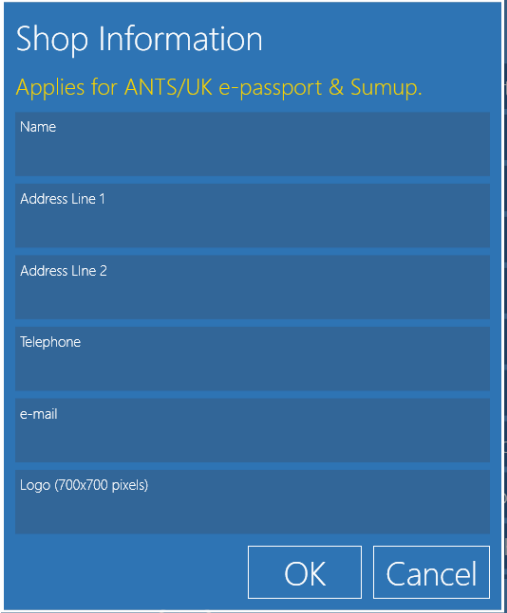

Details of each items, please refer the user manual of SnapLab Plus/SL 620.

Items of v3.5.45.18
